EXPERIENCE

Full Stack Developer Intern

Least Action Company (AUG-2025 - NOV-2025)

Completed internship as a Full Stack Developer, working on end-to-end web application development using modern technologies. Developed responsive frontend interfaces, built RESTful APIs, integrated databases, and implemented authentication systems. Contributed to real-time project features, debugging, and performance optimization in a collaborative development environment.

Skill Development

MERN Stack Development - GUVI

Completed comprehensive training in full-stack web development using MongoDB, Express.js, React.js, and Node.js. Developed RESTful APIs, implemented JWT-based authentication, and built real-time, scalable web applications with database integration and deployment experience.

Python Programming Course - LMES Academy

This course covers the fundamentals of Python, including variables, data types, control structures, functions, object-oriented programming, and real-world application development. Students will gain hands-on experience through practical exercises and mini-projects.

CERTIFICATIONS

- **Advanced Python** - Completion Certificate (March 2023)
- **Full Stack Development** - Completion Certificate (December 2024)
